

Here is a fun math center for you to make. Glue the baskets to a large piece of poster board. Then laminate and cut out the eggs. Place Velcro on the eggs and the inside of the basket. Have the students place the eggs in the correct basket.

# Eggs in the Baskets

**Solve the problems on the eggs.  
Each solution matches a number on a basket.  
Place the correct egg in the basket.  
Complete the center sheet  
when all the eggs are in the basket.**
