

Lasso Up 10's can be used as a math center.

To set-up: Print, cut, and laminate the cards on page 3. Use page 4 to create your own numbers you wish to have your students use. Place cards and the center sheet (page 2) in a math tub.

To Use: Student draws a card from the tub and write the number drawn in the middle of one of the lassos on page 2. Above the number she will write 10 less and below it she will write 10 more. Repeat till all 10 lassos have been filled in. Center sheet can then be turned in to be checked by the teacher.
