	<p>Today we read, <b>The Rainbow Fish</b> by Marcus Pfister</p>	
	<p>The other fish were amazed at his beauty. The fish would ask the Rainbow Fish to play but he would just ignore them.</p>	<p>The Rainbow Fish was the most beautiful fish in the ocean. His scales were as beautiful as the rainbow above.</p>

<p>The Rainbow Fish was lonely and wondered why no one liked him.</p>	<p>A wise octopus told the Rainbow Fish to give one scale to each of the other fish and he would discover how to be happy.</p>
<p>Rainbow Fish shared his scales. A funny thing happened, the more he gave away the happier he became.</p>	<p>This story teaches us that even if you are as beautiful as a rainbow, happiness comes from loving and sharing with others.</p>

Cut out fish and glue in boxes. Circle the Rainbow Fish.

3 fish	2 fish
4 fish	1 fish

Altogether I have \_\_\_\_\_ fish!
