Same and Different Game!

SAME AND DIFFERENT GAME

2—3 players

Print 1 card per player. Provide six markers per player. Provide one dice per set or trio of players.

Players take turns rolling the dice and covering up the item that is different in the row they rolled. 1 roll per turn. If they roll a number they have already covered, they pass the dice on. First person to have all six different pictures covered is the winner.

The picture shows that this player has rolled a six and two. They have covered up the different picture.
